No. 06-9

DATE: May 26, 2006

TO: City Council President Scott Peters and City Council Members

FROM: Andrea Tevlin, Independent Budget Analyst

SUBJECT: Final Recommended Modifications to the Fiscal Year 2007 Budget

On Wednesday, May 24, 2006, the Budget & Finance Committee had its final meeting to consider the FY 2007 Proposed Budget. The action of the Committee was to tentatively approve the recommendations of the IBA as contained in IBA Report 06-26 and forward recent City Attorney and CFO information to the IBA for analysis. The motion was passed by a vote of 4-1 by the Committee with Council Members Faulconer and Hueso also supporting the action.

This memo summarizes the proposed action for the City Council's budget deliberation on May 30 and provides further analysis and information as requested by the committee.

IBA Report 06-26

The Committee supported the recommendations as provided in the IBA report dated May 19. Attachment I to this memorandum is provided to summarize these proposals. Since the publication of the May 19 report, the IBA has been informed that Tweet Street Park, which will be completed in FY 2007, will require funding of \$33,071 and 0.33 Grounds Maintenance Worker. As recommended in the IBA report, this funding should be included in the FY 2007 Budget. Attachment I to this report reflects the IBA recommendations from May 19, modified to include this expense. A corresponding reduction has been identified in the contribution to the General Reserves.

CFO's Technical Corrections

The CFO presented a final list of technical corrections via his memo of May 23 (Attachment II). The corrections result in an additional \$652,384 available in the General Fund. In addition, the CFO has captured the Council-approved payment by CCDC as a revenue of \$620,000.

The IBA has reviewed the items recommended for inclusion in the FY 2007 budget as introduced by the CFO. The IBA recommends that the CCDC payment of \$620,000 be approved, as well as the items as listed on Attachment 1 to that memo, with the following exceptions:

1. Line item 5 for Community & Legislative Services: Remove \$127,706 in revenue from the Water Department due to elimination of the Binational Affairs Liaison to Mexico Service Level Agreement with the Water Department, as identified in the Chief Financial Officer's May 23, 2006 Memorandum to Councilmember Frye.

2. Line item 4 for Citywide Program Expenditures: this should be modified to reflect a reduction of (\$243). The funding correction for Accessible San Diego is already accounted for in the IBA's report 06-26, so approving this item would "double count" that funding. However, this reduction of (\$243) in the transfer to Special Promotional Programs is still required because the Proposed Budget inadvertently transferred excess funding to Special Promotional Programs.

The CFO has also provided a summary of departments and activities that have been restructured for FY 2007 (see Attachment II).

Service Level Agreement Modifications

It is clear that the City of San Diego must reform its practices with respect to the use of Service Level Agreements (SLAs). In response to the finding of a Grand Jury investigation of the Water and Sewer Enterprise Funds, the Mayor has recommended elimination of several SLAs that currently provide revenue to the General Fund. It is not appropriate to continue to budget this revenue in light of the reforms that must be enacted. However, a full report has not yet been made to the City Council on the grand jury findings, current proposed actions, or strategies for future actions. As previously recommended by the IBA, the City Council should be briefed on these plans, to include a comprehensive package of reforms that require City Council approval. Nevertheless, the IBA does support the recommendation made in the CFO's May 23rd memo (Attachment II) to take immediate steps to eliminate practices that are deemed to be inappropriate in the FY 2007 Budget. As a result, approximately \$3.0 million in revenue from Enterprise Funds that is currently budgeted in General Fund Departments will be removed. In addition, the elimination of these SLAs should result in corresponding expenditure savings for all of the appropriate Non-General Fund Departments.

In accordance with the recommended modifications described above, the CFO's memo proposes to remove all of the Water Fund revenue to the Park and Recreation Department for the operations of concessions at reservoirs. While the memo does not recommend removal of the associated General Fund expenditures in the Park and Recreation budget, the Mayor's Press release of May 15 states that the Water Department will establish a contract with a vendor to operate these concessions by June 1 and through September 30, and that a long-term cost-neutral program through a private vendor should be in place after that. Since Park and Recreation will no longer operate these concessions in FY 2007, the expense of that operation should be removed as well. The IBA recommends removal of 19.58 FTE and \$1,692,858 from the Park and Recreation budget. The savings realized through this action should be redirected to the General Fund Reserve. The Park and Recreation Department is in the process of placing staff that formerly operated reservoir concessions into vacancies elsewhere in the Department.

All other impacts to existing programs that result from the loss of revenues associated with the SLA corrections should be reported to the City Council.

Final General Fund Modifications

The table below summarizes the recommended actions taken above, and directs excess available funds to the General Reserves.

GENERAL FUND MODIFICATIONS		
	Expense	Revenue
IBA Recommended Modifications Report 06-26	(\$364,665,820)	(\$364,665,820)
Add'l IBA Recommended Modifications (Tweet Street)	\$33,071	-
CFO Technical Modifications (as recommended by IBA)	\$536,032	\$1,072,422
CCDC Revenue	-	\$620,000
SLA Revenue Adjustment (as recommended by IBA)	-	(\$2,842,201)
SLA Expenditure Adjustment (Reservoir Concessions)	(\$1,692,858)	-
Adjustment to General Fund Reserve	(26,024)	
Subtotal Revised Modifications	(\$365,815,599)	(\$365,815,599)

If approved as proposed, the final contribution to the General Reserves will be as follows:

IBA Recommended General Reserve Contribution (Report 06-26)	\$7,226,121
Adjustment to General Fund Reserve (see above)	(26,024)
Final Proposed General Reserve Contribution	\$7,200,097

Deferred Maintenance Projects

The IBA recommends that the City Council adopt the attached list of deferred maintenance projects (Attachment III) to be executed in FY 2007 with the \$10.6 million available in the Proposed Budget. Of the Mayor's original plan for \$20 million funding for deferred maintenance projects, the General Services Department has created a prioritized list of projects totaling \$10.6 million.

Environmental Growth Fund Projects

In accordance with Report 06-26, the IBA recommends that the City Council appropriate funds from the balance of the Environmental Growth Fund 2/3. This onetime source of revenue could

be utilized for one or more projects that preserve and enhance the environment. The Park and Recreation Department has identified a prioritized list of needs for City Council consideration (Attachment IV). The IBA recommends that the City Council approve these projects to be included in the FY 2007 Budget.

Funding for Police Recruitment and Retention

The City Council recognizes that the recruitment and retention of Police Officers is critical to public safety in the City of San Diego. Currently, a comprehensive recruitment and retention plan has not been identified by the Police department. The Police Chief has indicated that a plan is forthcoming and will be presented to the Public Safety & Neighborhoods Services Committee in June. The IBA recommends that funding not be allocated for recruitment and retention until a specific action plan is brought forward by the Mayor and Police Chief, and is approved by Council. We recommend this be done as soon as possible. If the City Council deems the recruitment and retention plan acceptable, then funding should be identified for these efforts from additional General Fund revenues or reserves.

Arts & Culture Council Discretionary Funds

The IBA continues to recommend that funding not be increased or reallocated at this time to augment City Council discretionary funding. Consistent with the "time-out" approach suggested by our office, it is not recommended that major reductions or additions to programs be implemented in FY 2007. The policy objectives of the Special Promotional Programs, including Arts & Culture funding, should be discussed in anticipation of the FY 2008 budget process.

QUALCOMM Parking Fee Increase

Consistent with Report 06-26, the IBA recommends that the issue of parking fees at QUALCOMM be revisited by the City Council as soon as possible. This item has been docketed for Tuesday, May 30th. If parking fees are increased, the General Fund subsidy for that stadium would be reduced, freeing up approximately \$312,000 for the General Fund Reserve.

Take Back the Streets

In IBA Report 06-26, we recommended including \$300,000 for the Alpha Project's Take Back the Street Program. If this recommendation is approved, the Environmental Services Department will administer the contract with the Alpha Project, and will make recommendations to the City Council regarding the types of services and the service areas that will be covered by the Program.

Retirement System Proposed Additional Positions

At the Budget & Finance Committee Meeting on May 24th, the Retirement System Administrator, David Wescoe, informed the committee that he will be asking that the Retirement Board of Administration approve the addition of several new positions to the Retirement System Administration budget. Three of these positions currently exist in the City Auditor & Comptroller's budget. Since the Retirement Board is not scheduled to review or approve the Administrator's Proposed Budget prior to the passage of the City's budget, the IBA does not

Page 5

Council President and City Council

May 26, 2006

recommend the removal of the positions and associated revenue from the Auditor's budget at this time. However, should the Retirement Board approve the addition of these positions, they should be removed from the Auditor's budget at the next opportunity.

Non-General Fund Modifications

This memorandum has largely been focused on General Fund modifications. However, there are several Non-General Fund modifications that were identified by the CFO in his May 23rd memo, and are recommended by the IBA. Refer to Attachment II for more information on these modifications.

RE: Request to Consider Technical Corrections for Inclusion in the Fiscal Year 2007 Budget

Attachment 1 is a chart summarizing technical changes not specifically included in the Independent Budget Analyst's recommendations; however, were referenced in the IBA's report of May 19, 2006 and the Mayor's Recommended Revisions to the Fiscal Year 2007 Proposed Budget distributed to City Council on May 15, 2006. These changes include corrections to the budget associated with restructuring and errors that were not discovered until after the publication of the Mayor's Fiscal Year 2007 Proposed Budget of April 14, 2006.

I respectfully request that these items be considered by Budget and Finance Committee and the full City Council for inclusion in the Fiscal Year 2007 Budget. This information has been previously submitted to the Office of the Independent Budget Analyst.

The net result of the technical corrections in Attachment 1 is an additional \$652,384 available to be added to the unallocated General Fund reserve.

In addition to the above noted adjustments, staff is requesting that two additional adjustments to General Fund revenues be incorporated into the final budget. First, is a reduction of \$2,969,907. This is the result the elimination of general fund revenue from the enterprise funds as a result of reforms enacted by the Mayor to correct prior Service Level Agreement (SLA) charging practices. Attachment 2 describes the effect on the Fiscal Year 2007 Proposed Budget of the cancellation of these SLAs.

The second adjustment is to increase General Fund revenues by \$620,000 in order to capture a payment to the City from CCDC.

The net result of all of these adjustments means that \$5,528,598 will be available to be allocated to the unappropriated General Fund reserve in fiscal year 2007. The adjustments are outlined below.

SUBJECT: Effect on the Fiscal Year 2007 Proposed Budget of Discontinuing Service Level Agreements

In the Fact Sheet that addressed the San Diego County Grand Jury's recommendations regarding Service Level Agreements (SLAs) with enterprise funds, the Mayor committed to various actions to address irregularities in the execution and administration of these SLAs. Included in those commitments was the elimination of several SLAs where provision of services to enterprise funds did not appear to justify the charges to those funds.

The impact of the cancellation of the SLAs on the proposed fiscal year 2007 budget is a loss of approximately \$2.9 million in revenue from the enterprise funds. These revenues were budgeted to be received primarily from the Water, Sewer, and Environmental Services enterprise funds. A detail breakout by department, by service provided, by fund is included in Exhibit 1.

The affected departments are as follows:

<u>Department/Program</u>	<u>Service Provided</u>	<u>Budgeted Revenues</u>
Planning Department	General Plan Update	\$ 539,395
Binational Affairs	Liaison to Mexico	\$ 127,706
Park & Recreation	Reservoir Concessions	\$1,710,330
Park & Recreation	Chollas Lake/Park Maintenance	\$ 70,000
Equal Opportunity Contracting	Minority Construc. Contracts	\$ 522,476
Total Unrealized FY 2007 Revenues		\$2,969,907

Mitigation activities will occur to offset in part the loss of these revenues in some affected departments. The Park and Recreation Department, for example, is in the process of placing staff that formerly operated reservoir concessions into vacancies elsewhere in the department. Equal Opportunity Contracting through restructuring may

partially reduce the impact of the reduction in revenue. The loss of revenue, however, will need to be covered by reducing the contribution to the City's unappropriated General Fund reserves by a commensurate amount.
